Radioactive Waste Advisers Training Course

Providing a basic underpinning knowledge for Radioactive Waste Advisers.

The course is an IPEM approved external short course.

Monday 19 – Wednesday 21 October 2020

For further information on registration, email the RWATC Secretariat Physecs@icr.ac.uk or call 0208 661 3075.

For further information on course content, email the course organisers Jim Thurston jim.thurston@rmh.nhs.uk or Jessica Sowden jessica.sowden@rmh.nhs.uk or call 0207 808 2509.

Course Content

This course provides the theoretical background and training necessary for the management of unsealed and sealed radioactive substances in hospitals. The course is an IPEM approved external short course.

The first day covers the following subject areas: historical review, interaction and units, instrumentation, radiation effects and risks and the regulatory framework. The following two days cover the legislation, applying for a Permit and compliance with the Permit conditions, the transport regulations and practical management of radioactive substances in hospitals.

As well as lectures there will be workshop sessions covering some practical issues.

The course is at a level suitable for hospital physicists working in the field of radiation protection or those who want to expand their knowledge in this field. It is particularly suitable for those wishing to become Radioactive Waste Advisers and covers the Basic Underpinning Knowledge (Basic Syllabus) as set out in the RPA2000 Guidance.

Course materials, PowerPoint presentations and a certificate of attendance is provided.

Cost

The cost includes course materials, lunches, light refreshments and the course dinner (if you have any dietary requirements please give details in the space provided at the bottom of the registration form)
