Benign skin tumours

Sebaceous adenoma
Sebaceous epithelioma
Keratoacanthoma

Skin cancers

Sebaceous carcinoma

2: A relative is a first degree relative (FDR), second degree relative (SDR) or third degree relative (TDR)

3: For polyposis referrals, details of numbers and histology including relevant colonoscopy/histology reports are helpful for evaluation

4: Hyperplastic polyposis syndrome: as per WHO criteria*.

5: If affected relative(s) are alive it is more appropriate for them to seek referral for genetic assessment in the first instance
